

Broadband Visual Communications Virtual Video Mobile

Virtual Video Mobile

Broadband Visual Communications' Virtual Video Mobile service is a client-based application delivering HD Quality Video, Audio and Content to tablet users.

Built on the Polycom RealPresence Platform, the Virtual Video Mobile service extends Polycom's HD Video Collaboration technology beyond the office and conference room to the tablet market.

Tablets currently supported – Apple iPad2, Motorola Xoom, and Samsung Galaxy 10.1. Please contact us for confirmation of other compatible devices.

Key Features:

- Free yourself from the office and conference room with the ability to meet anywhere.
- Works over 3G or WiFi (3G subject to mobile carrier data rates)
- Stay connected with people and content with a single communication stream from your tablet.
- Eliminate barriers to productivity and open new opportunities for immersive teamwork.
- Gives you the ability to dial from any broadband enabled location without the need for complex network configuration.
- Take charge of your work/life balance by taking video conferencing with you wherever you go.

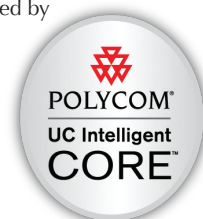

Installation Process:

- Simply download the free Polycom RealPresence Mobile Video Client App to your device
- Input your unique Username / Password
- Use the tablet of your choice to connect and collaborate!

Free Trial:

To book your free 7 day trial or for further assistance please contact us on 0117 3735302 or via the website www.broadband-vc.com/virtualvideomobile.htm
